PHILIPS
sense and simplicity

Specifications

Sound
- Magnet type: Neodymium
- Frequency response: 8–23,500 Hz
- Sensitivity: 98 dB
- Maximum power input: 50 mW
- Impedance: 16 ohm at 1 kHz
- Speaker diameter: 8.6 mm
- Type: Dynamic

Connectivity
- Cable length: 30 cm + 1 m
- Connector: 3.5 mm stereo

Accessories
- Extension cable: 1 m

Packaging dimensions
- EAN: 87 12581 45019 9
- Number of products included: 1
- Packaging dimensions (W x H x D): 10.2 x 18 x 3.2 cm
- Net weight: 0.011 kg
- Gross weight: 0.0525 kg
- Tare weight: 0.0415 kg
- Packaging type: Blister

Outer Box
- EAN: 87 12581 45020 5
- Number of consumer packages: 96
- Outer carton (L x W x H): 46.6 x 43 x 39 cm
- Net weight: 1.056 kg
- Gross weight: 7.7885 kg
- Tare weight: 6.7325 kg

Inner Carton
- EAN: 87 12581 45021 2
- Number of consumer packages: 6
- Inner carton (L x W x H): 20.4 x 11.1 x 17.5 cm
- Net weight: 0.066 kg
- Gross weight: 0.416 kg
- Tare weight: 0.35 kg

Highlights

Mic-friendly headphones
The cable length of these headphones is designed to optimise sound pick up from the microphone of your headset connector. It also optimises the overall cable length of these headphones combined with a headset connector. Headset connectors allow the use of standard headphones (without a mic and with a standard 3.5 mm headphones plug) with a mobile phone. They often come with mobile phones but can also be purchased separately. For most mobile phone brands, Philips SHH1XXX headset connectors are available. It also optimises overall cable length to the mobile phone.

Flexi-grip design
The soft flexi-grip material that the body of the headphone is sheathed in enhances its performance and extends its durability. It protects the cable connection from damage that otherwise could occur due to repeated bending of the headphone body from frequent contact with the user's fingertips when being put on and removed.

Split cable
This standard cable has a 3.5 mm socket on one end and a 3.5 mm plug on the other for extending your freedom of movement with headphones.

3-size ultra-soft silicon cap
Available in three different sizes (small, medium and large), the interchangeable ear caps ensure a personalised fit for each individual user. They are also made from ultra-soft silicon to provide the utmost comfort for prolonged listening.
